AMORY

DISARMAMENT SUGGESTIONS

Revise paragraph I-1 to read:

Each party assumes an obligation not to use nuclear weapons except
against an aggressor employing such weapons or in situations where a
majority of the UN General Assembly or a majority of the UN Security
Council approves their use.

Modify paragraph 2 to provide:

US unilateral announcement in immediate future that it is (1) sus-
pending tests for two years beginning 1 September 1958 and (2) is
immediately suspending production of fissionable materials except for
non-military purposes and (3) invites Secretary General of UN to assign
inspectors to UN atomic installations to verify this suspension and
(4) stating that production will be resumed at the end of one year
six months
unless theretofore the USSR and the UK have agreed to comparable verified
suspension of production.
